<p>Please feel free to mix and match these activities. At school we have found it best to cover the English and Maths in more formal sessions in the morning. The afternoon is then less structured and tends to be more practical and investigative. You are also welcome to ignore this suggested timetable and continue with the resources you have found most suit you and your child's situation. We would love to see any work you complete on Seesaw and will do all we can to comment on the work you upload. Please keep checking Seesaw for messages and as a method of contacting your child's teacher for support or just to celebrate!</p>
